

CLIO CARTS

Clio Carts work well in classrooms, STEM & Makerspaces, anywhere a mobile cart with storage is needed! Use the carts separately, or push them together to create one large unit. The separation allows the cart to be pushed against the wall if needed and allows it to fit through most doorways. The cabinet features an open shelf, and a set of locking doors with an adjustable shelf. The large casters allows the cart to easily be repositioned to create flexible room layouts.

FEATURES & SPECS

- Mobile cart with heavy duty locking casters
- Each individual cart is 30d x 60w overall. Available in 30" and 36" high
- Entire unit is HPL construction. Base is available in solid color HPL only
- Locking lower cabinet with adjustable shelf
- Strong docking magnets ensure carts stay together
- Limited lifetime warranty
- Made in the USA

EXAMPLES

Use the Clío Carts together or separately. The design allows them to be pushed against the wall if needed.

Pair Clío Carts with a Manistee Stable Table to create different classroom layouts as desired.
