

OSCODA CARTS & DESK

The Oscoda Line features Mobile Carts and a Teacher Desk that work well in specialty classrooms, STEM areas & makerspaces. Use the carts and desks separately, or use two together to create one large unit. The separation allows the items to be pushed against the wall if needed and allows them to fit through most doorways. The cabinet features storage with an adjustable shelf, and the teacher's desk offers drawer and cabinet storage. The large casters allows these items to easily be repositioned to create flexible room layouts.

FEATURES & SPECS

- Mobile carts & teacher desk with heavy duty locking casters
- Entire unit is HPL construction. Base is available in solid color HPL only
- Choose from two storage options
- Strong docking magnets ensure carts/teachers desk stay together
- Limited lifetime warranty
- Made in the USA
