

BAYSHORE BOOKCASES

Bayshore Bookcases are a stylish and sturdy line of bookcases perfect for classrooms, libraries, common areas, or office spaces. Choose from a variety of fixed and mobile designs to complete your space. Additional configurations, like starer and adder designs, are available on a per project basis.

FEATURES

- High pressure laminate construction
- Variety of options available
- Fixed units features adjustable leveling glides
- Limited lifetime warranty
- Made in the USA

Included Woodgrain HPL Selections

EXAMPLES

Pair the single-sided curved radius bookcase with soft seating and a Lapeer Table.

SPECIFICATIONS

- Fixed Bookcase construction: Side, Top, and Back Panels are .75" thick. Shelves are 1" thick. All panels and shelves are constructed with a particleboard core and high pressure laminate.
- As a standard, fixed bookcase backs will be unfinished. Stand alone units with finished backs are available and quoted on a per project basis.
- Wall cleats are included in fixed bookcase packaging. SAFFE recommends securing all bookcases to the wall.
- Shelves are 1" laminate construction featuring a routed pin slot to prevent sliding. Shelves are height adjustable along the interior of the unit. Fixed bookcase shelves feature 1MM edgebanding. Mobile bookcase shelves feature 3MM edgebanding.
- Fixed bookcases feature adjustable leveling glides on brackets mounted inside of the bookcase corners.
- TFL Material, as well as Starter and Adder designs are available and quoted on a per project basis. Color must be provided at time of quotation.
